AIMED AT RAILROADS.

A Bill to Correct Certain Abuses Is Launched in the Senate.

PROVISIONS RECOMMENDED BY KNOX.

Would Punish Those Who Give and Receive Rebates and Provides Against Discrimination. Doings of Congress.

Washington, Jan. 21.—Senator Elkins has introduced a bill which covers the features of antitrust legislation so far as it relates to railroads. It contains the provisions which have been recommended by Attorney General Knox as to the punishment of those who receive as well as those who give rebates. It provides for the punishment of corporations by fine instead of imprisonment of the officials; also for injunctions to prevent discriminations.

The Elkins bill is the result of a conference among various senators, most of them being members of the interstate commerce commission. Its purpose is to separate interstate commerce and railroads from other trust legislation. The interstate commerce committee has been unable to agree upon measures which have been pending before it relating to pooling and fixing rates by the interstate commerce commission. The new bill leaves these contested questions out and covers features which have been most conspicuous in the preparation of antitrust legislation. The bill was referred to the committee on interstate commerce, of which Senator Elkins is chairman, and it is the intention of the committee to take it up at an early day. Among those who have been consulted in the preparation of the bill besides Mr. Knox, were Senators Aldrich, Cullom, Foraker, Clapp and others.

Among other provisions of the bill are the following: The willful failure to file tariff rates and observe them subject the road to a fine of \$1,000 or \$20,000; granting or receiving rebates subject the corporations or persons to the same fine. The interstate commerce commission can institute suits in the United States courts for supposed infractions of the law. It is the duty of United States district attorneys under direction of the attorney general to institute and prosecute suits provided for in the act. The bill gives the courts power to compel the attendance of witnesses, both carrier and shipper.

In the Senate.

Washington, Jan. 21.—When the senate met the Vest resolution requiring the finance committee to prepare and report a bill removing the duty on coal, was referred to the committee on finance. Mr. Quay then called up the statehood bill. Mr. Burnham (N. H.) addressed the senate in opposition to statehood for Oklahoma, Arizona and New Mexico.

Succeeds Senator Vest.

Jefferson City, Mo., Jan. 21.—The general assembly met in joint session and formally declared former Governor William Joel Stone elected United States senator to succeed Hon. George G. Vest, whose term expires next March. In honor of Senator Vest, who has been a member of the national body since 1879, a salute of 13 guns was then fired.

In the House.

Washington, Jan. 21.—Without preliminary business the house resumed the consideration of the Philippine coinage bill.

Ohioans See the President.

Washington, Jan. 21.—A delegation of Ohioans headed by Governor Nash, and including General Brinkerhoff, president of the state board of charities, General J. Warren Kiefer of Springfield, and Robert Manley of Chillicothe, called upon the president and invited him to attend the Ohio centennial anniversary celebration to be held in Chillicothe, May 20 and 21 next. President Roosevelt informed the delegation that owing to arrangements already partially completed for his western trip in the spring, it might be impossible for him to be in Chillicothe on the dates fixed for the celebration.

A Founder of Greely Colony.

New York, Jan. 21.—James G. Cooper, for 40 years connected at the business office of the New York Tribune, is dead. Mr. Cooper began newspaper work 64 years ago. He became connected with the Tribune in 1861. In June, 1870, he went to Colorado and became one of the founders and officers of the Greely colony. In 1871 and 1872 he served as chief clerk of the house of representatives of Colorado. Mr. Cooper returned to the service of the Tribune in 1872.

SEAMEN PERISHED.

Salt-Laden Bark Runs Aground and Is Fast Going to Pieces.

Atlantic City, N. J., Jan. 21.—The bark Abbott, salt laden from Turk's Island, for New York, went aground near Pip Bottom light and is fast going to pieces. Five of her crew of nine were picked up, but it is believed the other four were killed by falling wreckage. When the bark struck the strain caused one of her masts to fall and it is thought that four of her crew were either killed by the wreckage or stunned and fell overboard and were drowned. The rescued men were in a dying condition when rescued.

The life savers launched the lifeboat and started to the rescue. After battling with the heavy seas the life savers reached the Abbott and found that she was dismasted and there was no sign of life on board. After cruising about the wreck for some time they located the Abbott's house. Clinging to the top of the wreckage and almost dead from exhaustion were five members of the crew. They were quickly taken into the lifeboat and brought ashore, none able to tell of the terrible sufferings. The life savers again went to the scene of the wreck but have not yet succeeded in finding any trace of the other four members of the crew.

One of the men of the Abbott later died of exposure in the ship bottom station. The other four are unconscious and their condition is critical.

Strike Commission.

Philadelphia, Jan. 21.—The first witness called by the strike commission was Gilbert Jones, one of the assistant mine superintendents of the Temple Iron company. He denied positively that a blacklist existed at the company's collieries. On cross examination he said he had issued orders to the foremen of collieries over which he has supervision not to employ as miners any of the men who were on strike at the Maltby colliery of the Lehigh Valley company. G. L. Houser of Scranton, auditor of the Temple Iron company, presented to the commission the statements relative to wages. These included a statement of the earnings of the company for 1901. The Temple company employs 770 men whose average earnings in 1901 was \$1.59 9-10 a day. The company has no company stores. The Temple Iron company then rested its case and the Lehigh Valley Coal company proceeded to call witnesses.

Killed Her Assailant.

Kittanning, Pa., Jan. 21.—Mrs. Carmato Lituama, a married woman who lives with her husband and children at Hatesboro, shot and killed Santo Marzis, who followed her home and assaulted her. Mrs. Lituama is a beautiful woman 30 years old. Before she came to this country she met Marzis, who fell in love with her, but she would have nothing to do with him and came to this country with her husband. Marzis followed and kept up his suit. The woman still refused his advances until the affair culminated in a tragedy. He went to the woman's house and assaulted her. She defended herself with a revolver, shooting Marzis in the breast killing him instantly.

Mysterious Explosion.

Whitman, Mass., Jan. 21.—Two fissures in the earth about three feet deep and a few inches wide, and running for a distance of a quarter of a mile, are the only evidences of a mysterious explosion which shook this town violently. A number of persons began searching and in a meadow they found a crack in the earth's crust about three feet in depth and two or three inches wide. They followed it for three-quarters of a mile before they reached the end. Later they discovered another fissure of the same description about 75 feet away from the first and parallel with it.

Funeral of Hewitt.

New York, Jan. 21.—Abram S. Hewitt was buried from Calvary Episcopal church, Bishop Potter of New York and Bishop Satterlee of Washington assisting in the funeral service. The gathering in the church included representatives of the social, business, educational and political life of the city. The church was crowded and many stood during the simple but impressive service.

Coal Men Indicted.

Toledo, O., Jan. 21.—After an investigation lasting a week, the common pleas grand jury indicted officers of the Toledo Coal Exchange on the charge of maintaining an alleged combine to keep up prices for coal. The report says that 40 other persons are unlawfully engaged in the alleged conspiracy. They were arrested and gao bnd.

Used Formalin.

St. Louis, Jan. 21.—As a last resort in an effort to save the life of Mrs. Alice Garrett, Dr. Walter B. Dorsett commenced the use of formalin for blood poisoning. A marked improvement in the condition of Mrs. Garrett has resulted.

TREASON THE CHARGE

Colonel Lynch, Who Aided the Boers, On Trial For His Life.

HE ENTERS A PLEA OF NOT GUILTY.

French Liner La Touraine Badly Burned at Her Dock—Extension of Wireless Telegraphy. Other Foreign News.

London, Jan. 21.—The trial of Colonel Arthur Lynch, member of parliament for Galway, on the charge of treason by aiding and abetting the king's and late queen's enemies during the war in South Africa, he, according to one unique sentence of the arraignment, "being moved and seduced thereto by the instigation of the devil," was commenced before

COLONEL ARTHUR LYNCH.

the lord chief justice, Lord Alverstone and two other justices. The prisoner pleaded not guilty.

Unusual interest is taken in the Lynch case. The court room was crowded, many ladies, including Mrs. Lynch, being among those present. Colonel Lynch was pale and careworn, but he stood composedly listening to the lengthy indictment which occupied nearly an hour in reading. Drawing, quartering and beheading accompanied the death penalty for treason until 1870, when this was abolished. The death penalty, however, remains. The attorney general, Sir Robert Finlay, opened the case, reciting the alleged treasonable acts, as fully reported at the preliminary hearing.

After the conclusion of the evidence for the crown, which did not differ from that presented at the preliminary hearing, and the reading of Colonel Lynch's statement made before the committing magistrate, the case was adjourned.

Von Holleben in Paris.

Paris, Jan. 21.—The retiring German ambassador to the United States, Dr. Von Holleben, arrived here from Cherbourg, where he landed from the steamer Graf Waldersee. His health appeared to have been benefited from the sea voyage, but he declined to discuss in any way the recent events with which he has been connected. He was also indisposed to indicate his own plans for the future or say how long he intended to remain in Paris.

For Wireless System.

Rome, Jan. 21.—The minister of posts and telegraphs, Signor Galimberti, has announced that at the reopening of the chamber of deputies, he will ask for an appropriation of \$150,000 to erect wireless telegraph stations for a service between Italy and Argentina. The work will be directed by Marconi.

French Liner Scorched.

Havre, France, Jan. 21.—Fire attacked the French liner La Touraine at her docks. The fire raged fiercely, destroyed the saloons and deck cabins and spread to the holds before it was under control.

Another Warship Goes Through.

Constantinople, Jan. 21.—Another Russian torpedo boat destroyer passed through the Dardanelles Monday, bound for Sebastopol.

Eventful Career Ended.

Butte, Mont., Jan. 21.—George Van Buren, one of the most noted characters of the northwest, committed suicide in a cabin in Rattlesnake valley, north of Missoula. After a protracted spree, he placed the barrel of his rifle against his heart and touched the trigger off with a stove poker. Van Buren was 60 years of age and claimed to be lineal descendant of President Van Buren. He acted as scout under General Howard during the Nez Perce trouble. He also was sent out by Miles with orders for General Custer, reaching the scene of the massacre the day following the annihilation of the band of soldiers.

Compensations.

TWELVE WORKMEN DEAD

As the Result of a Collision on the Great Northern Railroad.

Leavenworth, Wash., Jan. 21.—Twelve men are dead and as many more injured as the result of the rear-end collision that occurred on the Great Northern five miles west of Chivakum. An extra from Skikowish loaded with lumber and three cars containing laborers ran into a rotary snowplow, killing or injuring all of the 25 workmen. Ten cars are piled up in a heap, with nine victims or the wreck still underneath. The names of the dead are not obtainable. The engineer, L. E. Adams, and Fireman Lewis Becker of the freight escaped. The box cars that were used for transporting the crew were coupled next to the engine, with the cars of lumber following, and when the crash came the lumber telescoped the cars loaded with their human freight, killing and maiming the entire crew. Only two escaped, and they were thrown bodily into the air, landing 30 feet away.

Glenn Case Closed.

Manilla, Jan. 21.—Frank Remars and Harry Prescott, the civilian scouts who commanded the detachment which killed the native guides in Samar, testified at the trial by court martial of Major Edwin F. Glenn of the Fifth infantry, charged with unlawfully killing prisoners of war. The witnesses said the guides tried to escape and that they ordered them to be killed. Washington Corn, a scout, corroborated Remars' evidence. All the scouts testified that Major Glenn did not order the execution of the guides. The prosecution showed that the testimony of Prescott and Corn conflicted with the statements they made when the inspectors investigated the affair. The presentation of testimony has closed. The arguments will be heard on Saturday.

Compulsory Vaccination Suits.

Chicago, Jan. 21.—Because her employers, Truax, Green & Company, insisted that she be vaccinated, and because she alleges, that she became ill from the effects of that vaccination, Miss Grace Voorhees has brought suit against her former employers for \$50,000 damages. Miss Voorhees asserts that she was able to earn \$100 a month in February, 1901, and that she submitted to the vaccination because she thought that it would be properly done, and that she could not retain her position unless she did submit. She avers, however, that the vaccination was not well done, that from its effects she became ill, and that she will never again regain her strength because of the poison which was inserted into her system at that time.

Slashed a Woman's Throat.

Pittsburg, Jan. 21.—Antonio Roach, an Italian, attacked Maggie Fiano, with whom he conducted a boarding house, and slashed her throat from ear to ear with a razor. He then fled and was followed by hundreds of angry citizens. After a long and exciting chase the would-be murderer was captured. In attempting to escape Roach slipped and fell 50 feet over a steep precipice to Grant boulevard, and jumped 30 feet from the girders of the Seventeenth street inclined plane without sustaining injury. The police succeeded in placing him in the station house unharmed. The woman is still living and, notwithstanding her wounds, may recover. The motive for assault was jealousy.

Affirmed Laylin's Decisions.

Columbus, O., Jan. 21.—The board of appeals under the Willis law rendered decisions in a number of cases in which foreign corporations had appealed from the rulings of the secretary of state as to the amount of tax they were to pay under the Willis law. In every case the decision of the secretary of state was affirmed. All the companies are foreign corporations, having all their property in Ohio. They raised the point that they should be taxed only on their issued stock. The secretary held that they must pay on their authorized capital, and this was affirmed.

Packing Plant Burned.

Milwaukee, Jan. 21.—The big warehouse of the Plankinton Packing company, located here, was burned. The fire started in the engine room. The building is 300 by 50 feet and three stories high. Seven hundred slaughtered hogs added fuel to the flames. The loss is \$100,000.

Thanks For Chaffee.

Washington, Jan. 21.—Secretary Root has returned to the senate military committee, with a strong recommendation for its passage, the joint resolution tendering the thanks of congress to General Chaffee and the officers and men under his command in China.

House committee on naval affairs is investigating the charge that Representative Lessler (N. Y.) had been approached with a bribe of \$5,000 for his support of appropriation for additional submarine torpedo boats.

HOME FOR PRESIDENT.

Miners' Committee Reports Adversely on the Proposition.

BENEFIT FUND ALSO TURNED DOWN.

Resolutions Read From Locals Demanding an Increase of Wages and Other Things—United Mine Workers.

Indianapolis, Jan. 21.—When President John Mitchell called the United Mine Workers to order, he announced the following committees:

Special Committee on Resolutions of Appreciation—William Treager, district 8; Paul P. Pulaski, district 9; John Manning, district 14; Gilbert Brown, district 21; William Monahan, district 12; John F. McElhenney, district 7; Arthur Blakely, district 20. Special committee on injunction, T. L. Lewis, district 6; W. R. Wilson, district 2; Adam Pow, district 20; John Fallon, district 1; Edward Cahill, district 12; Patrick Smith, district 7; James D. Wood, district 23.

The resolutions committee began reading the resolutions submitted by the different locals. Most of these resolutions first demanded increases ranging from 18 to 25 per cent for the run of mine basis; for weighing coal on the miners' car; for smaller differentials and for advance in the wages of the inside and outside common labor.

A resolution from an Illinois local to buy a \$10,000 residence in Indianapolis as a permanent residence for the president of the association was not concurred in by the committee.

A resolution from one of the Pennsylvania anthracite districts asking that all districts petition the legislatures of their respective states to cause one per cent of all coal sales to be set aside as a permanent benefit fund for the miners who are crippled, injured or permanently incapacitated in mine casualties was not concurred in. A resolution to establish a miners' paper printed in the Polish language brought forth a long discussion and on the advice of President Mitchell, the matter was referred to the executive committee.

The Mine Workers' national wage committee, of which W. H. Haskins of Ohio is chairman, and Patrick Dolan of Pittsburg and Patrick Gilday of Morrisdale, Pa., are members, has got down to business and is receiving the reports from all of the districts and the recommendations regarding the demand to be made for an advance in wages. Patrick Dolan said: "It seems that the Ohio miners are demanding that we ask for 25 per cent increase. The miners of Indiana, Illinois, western Pennsylvania and central Pennsylvania are talking about asking for an advance of 15 to 20 per cent. It seems that we go into conference, with the limits of discussion set—15 per cent as a minimum and 25 per cent as a maximum—but what our recommendation to the convention will be, of course, no one can tell."

Fight Between Labor Unions.

Lynn, Mass., Jan. 21.—Prompted by the disturbances created when striking shoecutters and their sympathizers attacked the cutters who took their places, Mayor Eastham issued a proclamation calling on the police to enforce to the letter the city ordinances against loitering on the streets and urging all citizens to refrain from congregating in the factory district or making any demonstrations. The police on escort duty will be mounted. Order now prevails and the union shoe cutters continue the work of placing new men in factories from which the Knights of Labor cutters struck last week.

Situation in Delaware.

Dover, Del., Jan. 21.—The Democratic members who made the offer to deal with the regular Republicans in electing one senator each in an effort to defeat Addicks, submitted their refusal to extend the time limit of the offer. Representative Flynn, one of the members of the regular conference committee, who received the answer, said: "They are rushing us on this. We have not had time to consult the wishes of our constituents and this we must do before making such a move."

Fatal Collision.

San Bernardino, Cal., Jan. 21.—A head-on collision occurred between two Santa Fe freight trains in Cajon Pass. Conductor Stewart and Fireman Beckett were killed and one other man will probably die.

Fate of Wilcox.

Hartford, N. C., Jan. 21.—The jury in the Wilcox case brought in a verdict of murder in the second degree and fixed his punishment at 30 years in the penitentiary at hard labor.

The committee anticipates no further serious opposition from the persons heretofore opposed to its action in calling the primary.

Neither Armour & Co., Cudahy & Co., Swift & Co., nor any of the other big meat packers have complied with the provisions of the new revenue law which requires them to report twice a year to the State Auditor the amount of business done by each in Kentucky for the previous six months. The Continental and American Tobacco Companies have also refused to make reports and are liable to the same penalties. Suits will also be filed to recover franchise taxes from these companies, nearly all the smaller companies having reported and paid taxes.

FREE MAIL BOXES.

Article From Enquirer Published Wednesday Was Misleading—Patrons Must Supply Their Own Boxes.

The article from the Cincinnati Enquirer republished in Wednesday's issue of the BULLETIN in regard to the Post-office Department furnishing mail boxes to patrons along the rural delivery routes was misleading, according to the BULLETIN's latest information. The local post-office officials say that the boxes referred to by the article are boxes such as the government has erected in the city of Maysville, where mail may be deposited and taken up by the carriers as they make their rounds. The department contemplates erecting such boxes at points along rural routes wherein letters and other mail may be deposited by any one and then collected by the rural carriers as they make their daily trips.

People along the rural routes who expect to receive mail by the carriers must erect their own boxes on the roadside near their homes. Many have already ordered these boxes, and all others should do so at once.

HERE'S A POINTER!

A Proposition to Farmers That Would Tickle the "Original Rib."

We are pleased to announce that notwithstanding the recent advance in wire goods, our prices on **AMERICAN FIELD FENCE** will remain the same for a **FEW DAYS**. A purchase of five car-loads late in the Fall enables us to continue the old quotations for a short time only. **PRICES ARE GOING HIGHER** and we would not be surprised at any time to receive advices of a further advance. Our present figures are much lower than we can promise to name a month hence and are subject to withdrawal without notice. Farmers would do well to anticipate future needs and buy while we are in position to make this offer.

THE FRANK OWENS HARDWARE COMPANY

JOHNSON VS. ZWEIGART.

Opinion of Appellate Court Reversing Above Case Taken Up From This City.

In reversing the above case the Court of Appeals says:

Appellant, a lawyer, brought this suit against appellee on account of legal services and for money paid thereabout. The services are not denied. The real defense outside the value of the services is that the fees sued for were settled by a contract between the parties by which it is claimed that appellee bought his claim for fees and five certain promissory notes for \$2,500 cash.

The question involved in this appeal is whether the sale was an absolute one or whether it was a loaning by appellee of \$2,500 to appellant and a pledging of notes to secure it. A written contract was introduced in evidence reciting that appellant had delivered to appellee a number of notes, including a life insurance policy, for \$2,500 cash.

In the second clause of which appellee obligates himself to return to appellant the unpaid notes after collecting \$2,500 and interest.

A receipt reciting settlement in full for attorney's fees of same date was introduced in evidence. Appellee was permitted to introduce oral testimony to vary or dispute the writing.

Held.—That such evidence was incompetent without an allegation of fraud or mistake. The court should have excluded all that transpired between the parties that tended to substitute a different contract or understanding for the one evidenced by the writing.

The court should have instructed the jury that the evidence of the writing, the first mentioned, was a mortgage or pledge of the notes therein mentioned to secure to appellee the payment of \$2,500 with interest and that the agreement to relinquish the fees, executed simultaneously and as a part of the other agreement, was without lawful consideration and void. The sole question then left to the jury was, first whether there was a special contract by which appellant agreed to collect the notes mentioned in his account at the rate claimed and, second, if not then the jury should have found such sum as under the evidence was a reasonable compensation for the services rendered.

L. W. Robertson and E. L. Worthington for appellant; G. S. Wall and L. W. Galbraith for appellee.

Notice to Farmers.

Lewis Morrison's "Faust" at Opera House To-night.

The newly revised version of "Faust" appears here to-night at Washington Opera House. Goethe's immortal poem is credited with many years of phenomenal prosperity in its dramatized form, greatly owing to Lewis Morrison's version having carefully preserved the struggle between good and evil of "Faust" and "Marguerite." The chorus, scenery, costumes, electrical effects and music are said to be the most costly and elaborate Lewis Morrison's "Faust" has ever been invested with. Seats on sale on Nelson's.
